

Bar Line Self Contained Machines - Bistrot Cube

BAR LINE

ICE - MACHINES

B 21
B 31
B 40

Also available in the self-contained range for "Bistrot" cube:

B 50, B 65, B 90.

See pertaining literature for more details

B 21 AS/WS

B 31 AS/WS

B 40 AS/WS

Bar Line is one of the best known and longest standing successful ice machines brands in Europe. Originally dedicated mainly to self-contained units, producing the thimble-shaped rounded ice cubes, the Bar Line equipment range has recently been extended to modular units in various capacities and ice types. Bar Line units are built with sturdy, corrosion resistant stainless steel, and feature European made components to assure maximum quality and reliability. Tested one by one in the Italian manufacturing plant of Frimont Spa, ISO 9001 Certified, the Bar-Line self contained units feature well balanced ratio between production and storage capacity, alongside with reduced outer dimensions that allow for built-in installations.

Front air louvers assure appropriate airflow in critical install requirements; various daily productions are available for best suitable model selection.

- ✓ Horizontal spray technology is the best in class to produce pure, crystal clear, massive ice cubes, of 20 or 38 grams* of weight. The best for ice-connoisseurs!
- ✓ Contemporary, elegant design unites excellent operational features with the reliability obtained through years of successful experience in ice making technology.
- ✓ Insulated bin door and ice storage bin minimize air condensation and water formation on equipment surfaces.
- ✓ Electromechanic controls maximise reliability and ease of repair during the entire life of the equipment.
- ✓ Patented scale-control technology (**)
allow for long trouble free usage of the machines even in high minerals content locations.

(** = available of selected models)

BAR LINE ICE - MACHINES

B 21 - B 31 - B 40

All units have stainless steel finish.
Refrigerant R 134a.
Voltage: 230/50/1 or 230/60/1.

OPERATING LIMITS

| | |
|-------------------|--------------------------|
| Air Temp. Range | 10°C - 40°C |
| Water Temp. Range | 5°C - 35°C |
| Water Pressure | Min. 1 bar Max. 5 bar |

All specifications and performance data are subject to normal manufacturing variances.

Picture of model B 21

B 21 AS/WS

B 31 AS/WS

B 40 AS/WS

Installation Note: allow 152 mm minimum space at back for utility connections.

LEGS SUPPLIED:

four plastic legs screw into mounting plates on cabinet base, h 135 mm.
For B 21 and B 31 to be required separately as optional, for B 40 included.
